IntelLink WiFi Access Control QUICK SETUP GUIDE

Introduction

This device is a Wi-Fi based Touch Key Access Keypad & RFID Reader. You can install the free IntelLink mobile App to easily control access to the door using your smartphone. The App supports and manages up to 1000 users (100 Fingerprint & 888 Card/PIN Users); and supports 500 mobile app users.

APP OPERATION

Here are just a few steps to get started:

- Download the free IntelLink App. Tip: Search for "IntelLink" on Google Play or Apple App Store.
- 2. Ensure your smart phone is connected to your Wi-Fi network.

Intellink

1. REGISTER & LOGIN

Tap 'Sign Up'. Enter your email address to register a free account. Tap "Get Verification Code" (You will receive a security code via your email).

After registration, log into your new App account.

2. ADD DEVICE

You can add device by clicking 'Add Device' or clicking '+' on the top.

Tip: Turning on Bluetooth may make it easier to find and add the device.

NOTE

Disconnect Removes the device from this App user account. If the Owner account disconnects, then the device is unbound; and all members will also lose access to the device. However, all user information (eg. cards / fingerprints / codes) is retained within the device.

Disconnect and wipe data Unbinds the device and deletes all stored user settings (The device can then be bound to a new Owner account)

Code Sequence to Unbind Device Using Keypad (Default Master Code is 123456)

* (Master Code) #

9 (Master Code)# *

Power reset the device before pairing with a new Owner App account.

TIP: To change the Master Code, please refer to User Manual.

ATTENTION

The following functions are not accessible via the App:

- 1. 'Change PIN'
- 2. 'Card+ PIN' Access Mode
- "Tips for PIN Security'---- Hides your correct PIN with other numbers up to a max of 9 digits only.
